NUMBER 42

REPUBLICAN PRIMARY.

Judge Carter and Mr. Huddleston Carry Every County in the District.

COUNTY WINNERS FOLLOW.

The primary election has come and gone, and it left some surprises, but in the main the result was about as was predicted weeks before it came off, and the winners are very much elated.

The News had no fight in the contest, but it had a very decided opinion as to the result in the district races, and predicted through the paper that Judge Carter would carry every county in the district, and that prediction proved true. His majority in the district is about 3,000. Monroe that Mr. Lawrence and his supporters claimed would give a majority of 1500 against Carter went for Carter by over 500 majority. We have not got the exact figures of his majorities in the other counties, but he carried them all about as follows: Russell, 740; Casey, 800; Adair 500; Cumberland, 100; Monroe, 500, making his majority about as above stated.

We also gave as our opinion that Mr. Huddleston would carry four out of the five counties for Commonwealth's Attorney, believing that Mr. Smith would carry Monroe county. We were mistaken as to Monroe, as it gave a small majority for Mr. Huddleston giving him all the counties in the district, making his majority about the same as Judge Carter.

Mr. Silas Sullivan, who was also a candidate for State's Attorney, received about 300 votes in Adair county, and his vote in Russell county is estimated at about 700. He also got quite a number of votes in the other three counties.

In the Legislative race, Adair and Taylor counties, it seems that Mr. Ed Murrall has defeated his two opponents by a small majority. He carried, according to reports, both counties.

The following are the winners in Adair county, and their majorities:

There were three candidates for the Legislature, J. W. Pruitt, W. N. McCubbins and Ed P. Murrall. Murrall's majority over McCubbins 227
J. C. Carter's majority 495
Huddleston majority 713
M. C. Winfrey's majority 881
W. S. Sinclair for Judge, over Herriford 715

W. A. Coffey county At- torney, majority 704

S. C. Neat, County Clerk, over Miss Nell 519

Geo Coffey, Sheriff, over Gow- en 858

Schuler, Tax Commissioner, over Bradshaw 45

Some months ago we spoke of the Farmers' Union establishing a general store at this place. Plans at that time did not materialize, but a member of the organization informed us a few days ago that the store would yet be a reality, but those who were going into the company were not yet ready.

Marion County Farmers Protest Assessments.

Lebanon, Aug. 3—Five hundred farmers gathered at a mass meeting here and after protesting the high tax assessments on farm lands passed the following resolutions:

"Whereas, the tax assessor of Marion county is listing farm lands at the same sum as the same lands were listed last year despite the fact that both lands and farm products have depreciated greatly in value. Therefore, it is resolved that farm lands should be assessed at not more than 75 per cent. of the sum named last year, and we recommend that all owners reduce the assessment on their lands 25 per cent in making returns for the purpose of taxation, believing this to be just and fair."

It was also urged that farmers throughout the State unite to demonstrate to the State tax commissioner and those in authority the justice of their position. H. P. Cooper acted as chairman of the meeting, and R. W. Scarce acted secretary.

Honor to The Girls Who Works.

God bless the girl who works! She is not too proud to earn her own living, not ashamed to be caught at her daily task. She smiles at you from behind the counter or desk or printer's case.

She is like the brave mountainer, already far up the precipice—climbing, struggling, rejoicing. The very sight is an inspiration. It is an honor to know this girl and to be worthy of her esteem. She is a queen in the realm of womanhood. She's a princess among the toilers. Her hands may be stained by dishwater, factory grease or printer's ink, but it is an honest hand. It stays misfortune from the home; it supports an invalid loved one, maybe; it is a moving, potent shield that protects many a family from the poorhouse. All honor to the brave toiler! God bless the girl who works!—Pittsburg News

Miss Sue King Married

Information has been received here announcing that Miss Sue King, who was a popular teacher in the Graded School, this place, for a number of years, well and favorably known, having many friends, was married in a suburb of Birmingham, Ala., last Tuesday August 2, 1921, to Rev. Ellis Boyd Gatlin, a Baptist minister.

The wedding took place at the bride's home, and it was a very quiet affair. Immediately after the ceremony the couple started on a motor trip and will be absent from home about two weeks. They will in a very short time after their return go to housekeeping in a new parsonage which is now being erected.

Miss King has the best wishes of her many Columbia friends.

Mr. Jacob Price, son of Mr. Porter Price, and who has a large circle of relatives in Adair county, was married, a few days ago, to Miss Edna Myers, San Jo, Ill. Mr. Price was a widower.

Home Wedding

A beautiful wedding was celebrated May 10th 6 p.m. at the residence of G. F. Shirley of Bogard, Mo. One hundred and fifty guests, friends and relatives of the bride and groom, graced the occasion with their presence.

Rev. R. R. Watts, of Huntsville, Mo., and Miss Stella Shirley, of Bogard, Mo., were united in the holy bonds of wedlock by Rev. G. W. Hatcher, of Columbia, Mo., a relative of the bride.

The attendants were Mr. and Mrs. Morris Carter and little Trilby Moore, bearer of the ring.

After a beautiful and impressive ceremony, the occasion turned to hearty congratulations and good fellowship in which mirth and dainty refreshments were enjoyed.

The bride is the beautiful and gifted daughter of one of Bogard's most highly esteemed citizens, pleasing in manner, charming in personality, sweet of face, gracious in spirit and consecrated in Christian service, all of which eminently qualifies her for the position into which the new relation ushered her.

Bro. Watts, the husband, is pastor of the Baptist church at Huntsville, Mo., a graduate of William Jewell college, a man who faces a promise of large usefulness in the ministry.

This happy union of such gifts and graces of character, it both a promise and a prophecy of a happy and successful future in their accepted vocation.

A veritable shower of remembrances of a substantial character from sources of friends, both present and absent, enhanced the joy of the occasion.

Bro. and Mrs. Watts left Tuesday night for Chattanooga, Tenn., to enjoy the sessions of the great Southern Baptist convention May 12-18, also to enjoy the scenic beauties and places of historic interest for which the Southern city is justly famous.

Many a Godspeed and congratulation follows them to their new home, which will open its hospitable portals to all friends May 20, 1921.

A Military Burying

Mr. Ben Powell, son of Mr. and Mrs. James Powell, who was killed in France, was buried at Oak Grove Church cemetery last Monday, with honors of war. His remains arrived last Saturday and was taken to his late home and on Monday the members of the American Legion, this place, took charge, and at the grave the impressive ceremony, after religious services were said, in which the minister paid high tribute to the departed, the soldier boys performing the last act in honor of the one who gave his life for his country. The interment was largely attended.

The attendants were Mr. and Mrs. Morris Carter and little Trilby Moore, bearer of the ring.

Big Sale of Stock.

Breaking of the drought throughout the state has stimulated the better bred livestock campaign being conducted by the Louisville Live Stock Exchange in every county, according to reports being received by the Exchange. Inquiries as to the number of certain breeds of sheep to be sold at the Second Farmer's Better Sire Sale at the Bourbon Stock Yards, August 11, are being received daily.

From the present indications the number of farmers attending the meeting will run into the thousands, the spring lamb market this year having had a decided effect on the development of sheep raising. At the sale August 11, at least 200 purebred bucks and ewes and 2,000 high grade sheep will be sold at auction as at the purebred bull sale in June.

The quality of animals to be offered at the sale is insured by the Keatucky Pure Bred livestock Association which is co-operating in the campaign and will supply the animals. Some of the most famous breeds in the world will be represented.

Notification has been received from the University of Kentucky College of Agriculture that agents of that institution have found the greatest interest everywhere in the sheep sale and they are being asked for information.

A modern tale of romance, the characters of which might fit an earlier century.

The Clan Call

By Hapsburg Liebe

Located in one of those feud sections of the South, where one meets that oddly blended blood of Puritan and Cavalier; where God-fearing men recognize few laws excepting those of their own making; where they read the Bible, pray for their enemies and then go forth heavily armed prepared to kill on sight; where the sufferings of the women, mother-love, wife-love and sister-love are working a change in code and gradually subduing primitive instincts.

One of the most fascinating settings for romance and adventure, it has been too much neglected. Hapsburg Liebe helps to supply the deficiency with this charming story.

Human Interchange.

"Hiram," said Mrs. Corntosel, "what is the new hired man complaining about?"

"He isn't really complainin'. Talkin' about his troubles is just a hired man's way of bein' sociable and friendly."

Whether it be fiction or fact, it is rather interesting to read one day that the interest on ten billions of dollars owed us by the allies is not to be collected for fifteen years, and the next day to learn that Washington plans to use it as a bonus to ex-service men.

Give Us Light.

The people of this country are in a maze of doubt and mystery over the millions of interest money that is due and to become due us on the ten billions owned to us by the allied governments of Europe.

It is the people's money, and yet the people are the last ones who are being afforded any light upon the subject.

The London Times is considered the world over to be a truthful paper, and the Times in its financial news makes the positive statement that arrangements are under way whereby the payment of interest is to be delayed for a period of fifteen years.

Our secretary of the treasury states otherwise, but at the same time he pays out nearly thirty-five millions of dollars to the British government in order to cancel a claim for transporting American troops and freight to France in British ships, when by every rule of right and justice he should have caused that claim to be credited against the billions the British government owes us.

Thirty-five millions would do wonders for the shamefully neglected sick and disabled ex-service men in this country, or it would furnish employment and relief to many of our idle millions of men who are facing destitution and want, but it was not used for either of these purposes, or for any other legitimate American purpose, so far as we can see.

Frankly, we do not understand it, and neither to the people.

We disclaim any intention or desire to attack the administration, for this is a time when we need cooperation in readjustment rather than criticism and discord, but unless the secretary of the treasury can furnish a legitimate and all-satisfying reason for his surprising amazing action he is laying the administration open to serious attack from republicans as well as democrats.

We are Americans first, and partisans afterwards.

Give us light!

It is a reproduction of Mr. Edison's Letter to Rachmaninoff, the famous Russian composer-pianist.

Will any talking-machine company dare to let Rachmaninoff record his "Prelude in C Sharp Minor" and other famous compositions, which he has recorded for Edison? We fear that no talking-machine manufacturer will permit this deadly parallel. However, you do not have to wait. Rachmaninoff has recorded other selections for talking-machines. You can draw your own parallels.

My dear Mr. Rachmaninoff:

Under a contract between yourself and Thomas A. Edison, Inc., dated the 24th of April, 1919, it is provided, in effect, that the royalties payable to you on various selections, which you have recorded for us, shall continue, only so long as you do not make phonographic recordings of such selections for anyone else.

I shall be very glad to give you permission to record these selections for others, without the loss of royalties under the aforesaid agreement. This will give you the opportunity to record your "Prelude in C Sharp Minor" and other important works, which you have already recorded for us.

Yours very truly,

Thomas A. Edison

"For years we have used Black-Draught in our family, and I have never found any medicine that could take its place," writes Mr. H. A. Stacy, of Bradyville, Tenn. Mr. Stacy, who is a Rutherford County farmer, recommends Black-Draught as a medicine that should be kept in every household for use in the prompt treatment of many little ills to prevent them from developing into serious troubles.

THEDFORD'S BLACK-DRAUGHT

"It touches the liver and does the work," Mr. Stacy declared. "It is one of the best medicines I ever saw for a cold and headache. I don't know what we would do in our family if it wasn't for Black-Draught. It has saved us many dollars . . . I don't see how any family can hardly go without it. I know it is a reliable and splendid medicine to keep in the house. I recommend Black-Draught highly and am never without it."

Obituary.

The death angel visited the home of Mrs. Mary Dudley, widow of the late Joseph Dudley, July the 6th, and claimed her for its victim. She was afflicted with diseases incident to old age. She was 81 years of age and had resided on the old Dudley homestead, 2 miles north of Glendale, for over 40 years. She was the mother of 12 children, only 6 of whom are alive. These are J. J. Dudley, J. E. Dudley and W. E. Dudley of this community, J. V. Dudley, of Montpelier, M. F. Dudley of Oklahoma City, and Mrs. J. L. Hurt, of Brazil, Ind. Her maiden name was the last surviving member of a family of 8 brothers and sisters, two of whom were civil war soldiers and died while in service, the remainder moved to western states where they died. Her parents Jacob and Rebecca [nee Watt] Smith were respectively the members of two old Irish and English families that came here via of North Carolina and Va.

She confessed her Christ at an early age and united with the U. B. church, later became a member of the Methodist church at Glensfork of which she remained a faithful member till death. A

good woman is gone, one who was loved by all who knew her. Not only will she be missed by the loved ones of her family but by the entire community. She was a devoted mother, kind and loving to all. God saw fit to remove her from this world of sin and pain and take her to a home not made with hands, but where a crown of righteousness is laid up for all who are faithful as she was. So dear ones weep not as those who have no hope but go and meet mother at the pearly gates where she is watching and beckoning for loved ones to come and join her, where there will be no more sad parting nor farewell tears, but all is peace and happiness.

Then sadly we say.
Darling mother thou hast left us;
Here thy loss we deeply feel
But 'tis God that has bereft us,
He can all our sorrows heal.

There is no death the stars go down,
To rise upon some fairer shore;
And bright in heavens jeweled crown,

They shine forever more.

It is reported here that Kennedy defeated Judge Bethel in the Pulaski district.

Judge Thurman won his race for re-election to the Circuit Judgeship in the Marion county district.

The night of the first of August was the hottest of the season in Louisville. It was also the hottest here.

Caruso, the greatest tenor this country has ever known and heard, died in Italy Sunday week after undergoing an operation.

The primary brought some disappointments, but the defeated candidates accepted the result gracefully, as they knew that only one man for a position could be nominated.

It is astounding at the number of people that are killed and wounded in the cities by automobiles. Two Louisville women were killed and several persons were wounded last week. You can not look over a daily paper without reading of deaths caused by machines.

The primary does not put the candidates out of business, as the fight will continue until the November election. There are three Democrats running for the respective offices, as follows: Gordon Montgomery, County Attorney; Evan Aikn, Sheriff; Charles Paxton, Circuit Court Clerk.

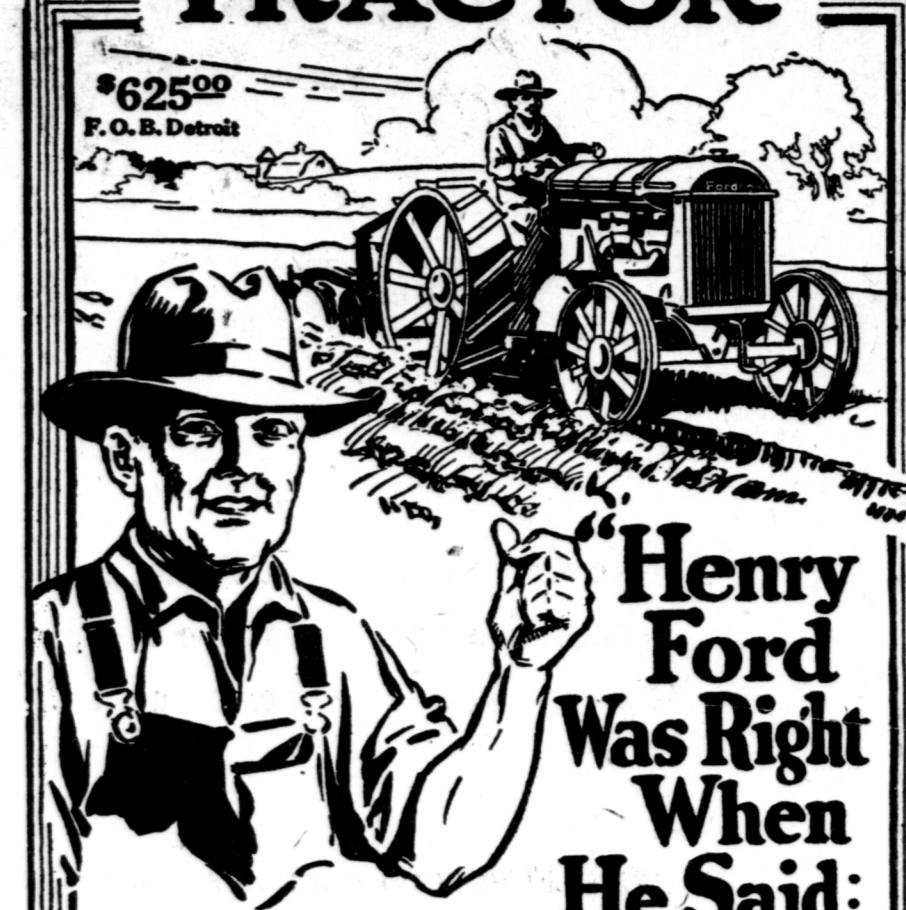

Dr. W. A. Ganfield has tendered his resignation as President of Centre College and will act in the same capacity for Carroll College, Wonkesha, Wisconsin. He will probably not leave Danville until the first of January, and will assist in the opening of Centre this fall. His departure will be a great loss not only to the Danville school, but to the entire State.

A tax of 2 cents on bank checks, a flat license tax of \$10 on automobiles, an increase of first class postage rates to 3 cents and an added levy on cigars, tobacco and cigarettes is the latest raise that has been suggested to the Ways and Means Committee. The people are taxed to death now, yet some of the leaders of the Republican party want to lay on more, and if they keep on raising after awhile the water we drink will be taxed.

The White House recently issued a statement in which it referred to the "achievements

Fordson TRACTOR

Henry Ford Was Right When He Said:

'The Tractor will enable the farmer to work fewer hours in the day, giving him more time to enjoy life. I believe the tractor will make farming what it ought to be—the most pleasant, the most healthful, the most profitable business on earth.'

This tractor has done much—very much—in bringing true Mr. Ford's prophecy; for in it is a machine which has harnessed one of the most dependable, efficient, adaptable, economical sources of power in the world—a machine that saves from thirty to fifty per cent of the farmer's time—a machine which many farmers claim plows, harrows or drills as much ground in the same time as four, six or even eight horses. And more—a machine that takes care of every power job on the farm.

of the largest importance to the country" brought about by the Republican administration.

These achievements were four—the reduction in discount rates by the Federal Reserve Banks, the refunding of the government's floating debt, the advance of funds to aid agricultural exports, and the payment of \$500,000,000 to the railroads.

It is strange that the White House should look up these four items as a basis for claiming a share in improving the conditions of the country. The reduction in discount rates does not mean prosperity, but always comes upon a stagnant business condition when the demand for money is lessened. It is true that the government refunded its floating debt, but this is not what the Republicans intended to do—at any rate their platform demanded that it be promptly liquidated.

Whatever benefit may have arisen from the funds for aiding agricultural exports has certainly been cancelled by the effect of a tariff bill which, by excluding foreign products, has greatly reduced the capacity of foreign governments to pay for American goods.

The payment to the railroads has not yet been brought about and is nothing but a suggestion which has been made by the President.

If this is the best record the Republican administration can claim, it had much better remain quiet.—Evening Post.

Firestone
30x3½ STANDARD NON-SKID

The Fastest Selling Tire In America

The increasing popular demand for the Firestone Standard 30x3½ inch tire over a period of years has given us big volume. Our Plant No. 2 devoted wholly to this size tire with a capacity of 16,000 tires and 20,000 tubes per day cuts costs on every operation.

On May 2, we dropped our price to \$13.95 passing on to the car owner the full benefits of this big sales volume and this labor-saving plant. This tire has been our standard for years—four plies long staple fabric—extra gum between plies—heavy non-skid tread. The greatest value ever offered car owners. Insist on Firestone.

Our Cord Tire Values

Firestone Cord tires are made exclusively in Plant No. 1. Our process of double gum-dipping each ply of cord gives thicker insulation. The massive non-skid tread, with extra thickness where wear is most severe, gives real effectiveness in holding the car against slipping and adds many extra miles of service.

Firestone Cord tires are sold at the lowest prices in cord tire history: 30x3½, \$24.50; 32x4, \$46.30; 34x4½, \$54.90.

After a few days in that city Mr. McFarland will go to a health resort in Michigan, for a six week's stay.

Mr. Ben Jeffries, wife, and little daughter, Marguerite, of Huntington, West Virginia, arrived last Friday to spend a week or two with relatives in Columbia and in Adair county. Mr. Jeffries left here seven years ago and married since he left. His friends were glad to see him.

Mrs. Lena Paull left Friday morning for Atlantic City, N. J. She will also visit other interesting places in the East before returning home.

Mrs. Nina Denver, her sister, will accompany her from Louisville. Her other sister, Miss S. R. Marcum, will meet her in Atlantic City.

Mrs. Jane Murrell, who is now 80 years old and who lives in Russell county, the widow of Willis Murrell, and her niece, Mrs. Wm. Blair, called at the News office last Thursday.

Mrs. Murrell's maiden name was Winfrey, her father's name was John D. Winfrey. She is an interesting old lady.

Mr. Robert J. Murrell, who left here 22 years ago, a son of Mr. J. B. Murrell, deceased, is spending a few days with relatives in Columbia. His nickname was "Takes" and he is known to this day by young men here by that name. To him he sees quite a difference in this place. Time has made them.

Mrs. Jo Carpenter Decherd, Tenn., Mrs. Clyde Carpenter, same city, and Miss Evelyn Northcutt, Tracy, arrived the latter part of last week, and stopped at the home of Mr. J. O. Russell. The first named is the mother of Mrs. R. O. Russell, the second, a sister-in-law and the third a cousin. Mrs. R. V. Bennett is also a daughter of Mrs. Jo Carpenter, and the visit means to two homes.

Master Allen Patteson spent several days in Louisville last week visiting his cousins, Joe and Dan Russell.

Mrs. W. A. Coffey was in Louisville last week visiting friends.

Mr. Jo Smith, who left this county 33 years ago, arrived last Saturday to spend a few days with his relatives. He was a grandson of the late Mr. Wyatt Smith, who lived on the Campbellsville pike.

Concerning Woodrow Wilson and Democracy:

A short time ago a small group of Democrats in Washington decided to issue a volume which would contain a record statement of the accomplishments of our party during the eight years of its successful regime at the National Capital, and some other documents affecting that administration, which should be made permanent and

**GREAT WORK OF U. S.
REMOUNT STATION**

Accomplishing Much to Build
Unexcelled Line of Cavalry
Horses Valuable to
Army.

The World War was the great caldron in which birth was given to many organizations looking to the leadership of America in every path of economic activity; and no such activity bearing on the future of one of our most vital essentials compares with that of the American Remount Association, an organization composed of some of the country's leading men. It came into being as a result of the dire necessity of more and better blooded horses for the United States Army. Thus, with kindred organizations, it is promoting one of the most important undertakings looking toward our future security.

The object of the Remount Association is the improvement of general-purpose horse conditions in every State in the Union; and because of the importance of the work entailed, Col. F. S. Armstrong, of the United States Army, has been placed in charge, with headquarters in Washington, D. C., where his department is in close touch with every other governmental agency. The Remount Association, with the co-operation of others similarly engaged, has, during the eighteen months of its existence, succeeded in getting one hundred and sixty-four stallions—eighty-five of which were donated by patriotic organizations and individuals—for distribution throughout the country, to be utilized by farmers desirous of raising the standard of their horses.

In laying out the work, it was decided to profit by the experience of foreign governments and locate thoroughbred sires in every grazing community of the country. The whole was divided into zones, and a plan of breeding, to the interest of the farmers of America, inaugurated. Recent reports from the Association's headquarters in Washington show that there has been an average of fifty-five mares for each stallion, although the breeding season is not yet concluded. Also, at a meeting of the Association, it was shown that there was a demand for some seven hundred horses last Spring, and that, for the coming Spring, this demand will be doubled or even trebled.

Both the race courses and the thoroughbred nurseries constantly are being drawn upon for horses of proven courage in the acid test of racing. It remains for them to produce the only type that measures up to the standard destined to supply the United States cavalry remounts worthy of the men in the service.

It may be added that, owing to the broad plan of fostering the industry of horse breeding as practiced for generations by the British, French and Italian Governments, these countries were in the enviable position of ability to supply their armies with good mounts, whereas, America, which had never introduced such a system was obliged to draw upon the resources of the allied nations to horse her men,

Regulations for the shipment of exhibits in the Kentucky State Fair, September 12th-17th, for the entry of exhibits and rules governing awards were announced by W. C. Hanna, Commissioner of Agriculture and by virtue of his office, Chairman of the Kentucky State Fair.

The fair grounds will be open for the reception of stock and articles for exhibition, Thursday, September 8th, and they should be shipped to the exhibitor his

Hapsburg Liebe

Hapsburg Liebe (Charles Haven Liebe), a native of the Tennessee mountains has been soldier, timber-jack and sawmill man. In his education he was denied even the little red school house, his alma mater being a log structure in the hills which he left by way of a window at twelve years of age. But he had a taste for reading and has acquired a fine command of English and a writing style through study of the best authors.

At seventeen he commenced writing and turned out eighteen stories, all rejected by the editors. He was almost discouraged; but his nineteenth effort stuck with the editor of a magazine. Lack of education made the task doubly hard; but now when he sells all he writes, he will tell you that the experience was worth all it cost.

Gritty! Indeed he is! At eighteen he joined a regiment for service in the Philippines. There he again found him ill with pneumonia, again was given charge of his captain and the orders of his doctor he accompanied the outfit, being carried to the cars by his buddies. Most of his tales are about the Tennessee and Kentucky mountainers. They are his people and better than any he has ever known and loves them. "The Clan Call," his most delightful tale, will soon start as a serial in this paper. Your misfortune if you miss it.

agent billed to the Kentucky, State Fair Grounds, Louisville, Ky.

All animals entered for exhibition, must be placed in the several departments prior to 9 o'clock the morning of September 12th and if not so placed, the owners will forfeit all right to exhibit or compete for prizes unless relieved from such forfeiture by the member in charge of the department.

On the entry of each animal or article a card will be furnished the exhibitor specifying the department, the number of class and the number of entry, which card must remain attached to the animal or article during the exhibition.

Stalls and pens will be assigned by the superintendent of stables upon presentation of certificate from the secretary that fees for same have been paid.

Awards of prizes will be made by the single judge system but right is reserved by the member in charge of the department to vary from this rule when in his opinion it is deemed advisable and for the best interests of his department.

Premiums in the live stock department will be paid on the grounds the day after the award is made. Premiums in the departments will be mailed as soon as possible after the fair. In issuing these regulations, Mr. Hanna is answering the questions of thousands of persons who are putting letters into his office asking information regarding the exhibits. From the inquiries it appears that nearly double as many exhibits will be at the Fair this year as last year which broke all records, Mr. Hanna says.

Kentucky State Fair, Louisville, Sept. 11-17.

Rough pavements and crossings tempt the motorist to drive on street car tracks. While it is

admittedly true that the occasional use of car tracks where road conditions are almost impassable is justified, it is also true that the strain on certain parts of the tire due to continuous running on car tracks will

not only quickly wear a depression in the tread rubber, but around the tire, but the sharp bending action and overload on the fabric directly under this depression will produce eventually an inside fabric break.

Running on car tracks is an expensive habit and should be indulged in only in extreme necessity, is the advice of the technical service department of the United States Tire Company. A barefoot boy

appreciates the need of quick attention to his surface cuts and bruises which given temporary protection are self healing. Tire tread cuts are also self healing if promptly treated with a heat-cut material.

The death of Mr. Wm. Hobson, who was a candidate for the Republican nomination for County Judge of Russell county, brought sorrow to many homes. Personally he was liked by both Democrats and Republicans, and there may in the county who thought that he stood a good chance to be nominated for County Judge. His death leaves two contending candidates, Judge Hill and Mr. Edmunds, and it is believed that the race will be close.

The corn crop in Russell county looks exceedingly well, especially on Cumberland river.

When this letter goes to press the election will be over, leaving many disappointed men in the county.

As we write we predict that Judge Carter will succeed himself as Circuit Judge of this district, and A. A. Huddleston will be re-elected Commonwealth's Attorney.

In a former letter I spoke of Jamestown being in darkness, no efforts being made to install an electric light plant. If some man in this town would show a little interest in the enterprise a stock company could be raised in a few hours and a plant put in. I do not know of anything that would be a greater benefit to Jamestown. As we have before said we do not know of another county seat in the State without lights. Install them and let your property advance in value.

Willie H. Bloyd was born June 10th, 1870, and died July 29th, 1921. He was 51 years old at his last birthday. On March 15th 1895, he was married to Miss Edmonia Turner. To this union were born four children. Father, two sisters survive. He became converted very young under the preaching of Rev. Hiram Turner, of Wayne county, A Cumberland Presbyterian church was established at Grant's school house and young Bloyd was elected clerk for the church and remained in that capacity until he left that section. He had a nice farm and residence on Crocus creek where he died.

The funeral services were conducted by Rev. Ernest Hadley, who gave a very appropriate talk, after which the remains were laid to rest in the Turner grave yard to await the resurrection morn.

And when the bells are sweetly ringing
We shall gather home.
And the angels gladly singing,
We shall gather home.
All the week and sad and weary,
We shall gather home.
In a city never dreary,
We shall gather home.

Obituary.

On Sunday, July 24, 1921, at his old boyhood home, near Ote, in Green Co., Ky., John Arthur Mitchell, who was killed in battle near Juvigna, France, Aug. 29th, 1918, whose remains were received the previous day, were buried beside his mother in the garden on the farm of his father, J. A. Mitchell. The services were under the direction of Greensburg Post of American Legion, headed by Lieut. W. F. Milby and Dr. J. C. Graham,

and was opened by Rev. L. B. Hart, pastor of Ebenezer Presbyterian church of which he was a faithful member. Walter Wilson and Vernon Calhoun, with cornets, gave a beautiful rendition of "Taps" which with the march to the grave by his old comrades and with the farewell volley over it, finished the impressive services with military honors.

An immense crowd was present to show the last token of respects to the soldier dead. He was 30 years old when he made the supreme sacrifice, and is survived by father, 2 sisters and 5 brothers, and a host of friends and relatives.

1st. To the Government I feel constrained to express my deepest gratitude for the lovely manner in which the remains were handled — wrapped in a clean blanket and pinned with large safety pins, and then a winding sheet and laid in a metal case lined with silk and packed with pillows, and placed in an oak casket and this again in a heavy box. Beyond a doubt his remains were identified by his teeth though all of the flesh was gone. I say this because so many have expressed doubt of the veracity of the Government.

2nd. To the neighbors who refused to be paid by the government for digging the grave, and the many tokens of sympathy that we have received from them, the casket draped in a large flag and covered with flowers was a thing of beauty and a token of love.

J. A. Mitchell, Ote, Ky.

Vocational Training.

We wish to bring to the attention of the disabled ex-service men that there is in Louisville, Ky., a local office of the Federal Board of Vocational Education, and from this office are sent field representatives to the different counties to meet personally these disabled men and advise them of their rights, and assist them of their rights, and assist them in taking advantage of the opportunities offered.

All men suffering from a vocational handicap, that is, some disability brought on by wounds, injuries or disease while in the military service are entitled after establishing proof of the correction of the connection of the disability to the service to receive training in the school trades or profession best suited to their disability at the expense of the government and during the period of such training will receive a monthly training pay of \$80.00 per month if single, and more if married, or have others dependent upon them for support. In addition to this the expense of books, tuition, tools and supplies will be paid by the Federal Board.

The instruction will be given as close to the home of the man as possible, and in many cases can be given in the town in which he lives. Regardless of the nature of the disability, some training can be given that will be of benefit to the man accepting it. Any disabled man who feels he cannot continue kind of work he did before entering the military service, and has not yet applied for vocational training can make application at the Federal Board for Vocational Education, 7th floor, Denton Building, Cincinnati, O., where their cases will be taken up and if declared eligible will be notified to that effect. Those men who already have been notified that they are eligible for training can if they write to the Local Supervisor, Federal Board for Vocational Education, 459 Francis Building, Louisville, Ky.

have a field representative call on them and explain to them, the advantages offered and ready to place them in training in occupations best suited for them. Special attention is called to the farmer boys who missed the opportunity of an elementary education that they may take a course in Agriculture in connection with an elementary education. This training is termed "Training Under Section Two of the Vocational Rehabilitation Act."

There are men who have been disabled only to a small extent, that does not interfere with their work. These men are entitled to training under section three of the Vocational Rehabilitation Act, and can be given training at the expense of the government, but without the monthly training pay given under section two.

The training must be along the lines of their present occupation or one they had previously worked at such as a correspondence or extension course. If you receive notice that a field representative is to be in your territory, kindly arrange to meet him and talk things over with him.

The hearty cooperation of the business men will be appreciated by the Federal Board for Vocational Education.
